Historical Financial Results

June 30, 2015

Safe Harbor

These slides may contain forward-looking statements. All statements other than statements of historical facts contained in these slides, including statements regarding Pandora Media's ("Pandora" or the "Company") future operations, future financial position, future revenue, projected expenses, opportunities, prospects and plans and objectives of management are forward-looking statements. In some cases, you can identify forward-looking statements by terms such as "anticipate," "believe," "estimate," "expect," "intent," "may," "might," "plan," "project," "will," "would," "should," "could," "can," "predict," "potential," "continue," "objective," or the negative of these terms or similar expressions. The Company bases forward-looking statements largely on its estimates of its financial results and its current expectations and projections about future events and financial trends that it believes may affect its financial condition, results of operations, business strategy, short term and long-term business operations and objectives and financial needs. Forward-looking statements are subject to a number of risks, uncertainties and assumptions, including, but not limited to, our operation in an emerging market and our relatively new and evolving business model, our ability to evaluate our current and future prospects, our ability to generate additional revenue on a cost-effective basis, our ability to attract and retain advertisers, our ability to increase our listener base and listener hours, our ability to continue operating under existing laws and licensing regimes and a number of other factors outside of our control. Further information on these factors and other risks that may affect our business is included in filings we make with the Securities and Exchange Commission from time to time, including our Annual Report on Form 10-K and our quarterly Form 10-Q, particularly under the heading "Risk Factors." Moreover, the Company operates in a very competitive and rapidly changing environment. New risks emerge from time to time. It is not possible for Company management to predict all risks, nor can the Company assess the impact of all factors on its business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements the Company may make. In light of these risks, uncertainties and assumptions, the forward-looking events and circumstances and the accompanying oral presentation may not occur and actual results could differ materially and adversely from those anticipated or implied in the forward-looking statements. You should not rely upon forward-looking statements as predictions of future events. Although the Company believes that the expectations reflected in the forward-looking statements are reasonable, the Company cannot guarantee that the future results, levels of activity, performance or events and circumstances reflected in the forward-looking statements will be achieved or occur. Moreover, neither the Company nor any other person assumes responsibility for the accuracy and completeness of the forward-looking statements. Any forward-looking statement speaks only as of its date. Except as required by law, the Company undertakes no obligation to update publicly any forward-looking statements for any reason after the date of this presentation, to conform these statements to actual results or to changes in the Company's expectations.

(1) Prior to the first quarter of 2014, the Company recognized revenue on a non-GAAP basis from a subscription return reserve, which consisted of revenue that was deferred on a GAAP basis because the Company had limited operating history with certain mobile subscription refund rights. The Company was required to defer all revenue until the refund rights lapsed or until it developed sufficient operating history to estimate a reserve. In periods prior to the first quarter of 2014, the subscription return reserve was excluded from the subscription and other revenue line of our GAAP presentation and included in this line of our non-GAAP presentation. In the first quarter of 2014, the Company established sufficient operating history to estimate a reserve for these mobile subscription refund rights. As such, the GAAP revenue results for the first quarter of 2014 included a one-time reversal of substantially all of the deferred revenue related to the subscription return reserve in the amount of \$14.2 million. This reversal was excluded from our non-GAAP revenue in the first quarter of 2014.
